EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The claims are in condition for allowance except the language in claim 5 which should have been canceled due to the redundant language. The Examiner made phone call to the applicants' Counsel (Mr. Weiner) on July 9, 2004 for the cancellation of claim 5, but no authorization was made due to the unavailability of the applicants. However, the Examiner believed that this cancellation does not affect the scope of the claimed invention, and was necessary to place the claim in condition for allowance. Therefore, claim 5 was canceled as amended below.

The application has been amended as follows:

Claim 5 is canceled.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The unexpected improvement of Dmax and the variation of line width presented in the claimed invention obviates any rejection under 35 USC 103(a) set forth in the office action of record. It discloses that all nucleating agent would perform similarly including the hydrazine compound. However, the Declaration shows that sample contains a hydrazine (B5) produce higher Dmin, higher variations of line width and less stable under high heat and humidity when combined with organic gold compound.
